## **ABOUT US**

Metal Fold is a brand of the Spare Autotech Group of Companies. The group's operations are headquartered in Rajkot, Gujarat, and have customers and stakeholders across the globe.

### **Automotive aftermarket**

The Metal Fold brand is a market leader in aftermarket components for 2 and 3 wheelers.

- India's largest range with Over 1000 components across key segments including exhaust systems, wheels, braking, transmission and suspension.
- Plans underway to extend component range to 4W and 6W.

### **Customized metal components**

We manufacture forged, cast and sheet metal components for a range of industries.

Highlights of our services are:

- Customisation for specific requirements.
- Infrastructure and capabilities for end-to-end solutions.
- International quality benchmarks.
- Products shipping worldwide.

## **OUR VISION**

To be a part of every 2, 3, 4 and 6 wheeled vehicle in the world.

## **OUR MISSION**

Create solutions that win with quality, reassure with engineering, service excellence and delight with costing.

## **VALUES**

Customer-centricity, Integrity, Innovation & Adaptability.

## 2W aftermarket components

Metal Fold is a market leader with over 1000 products to cover a significant percentage of 2W applications in India.

## 3W aftermarket components

If you're looking for aftermarket components for 3W, consider a brand that supplies to the largest user in the category. Metal Fold has a range of products that keep 3W's running.

## The Infrastructure of Engineering Excellence

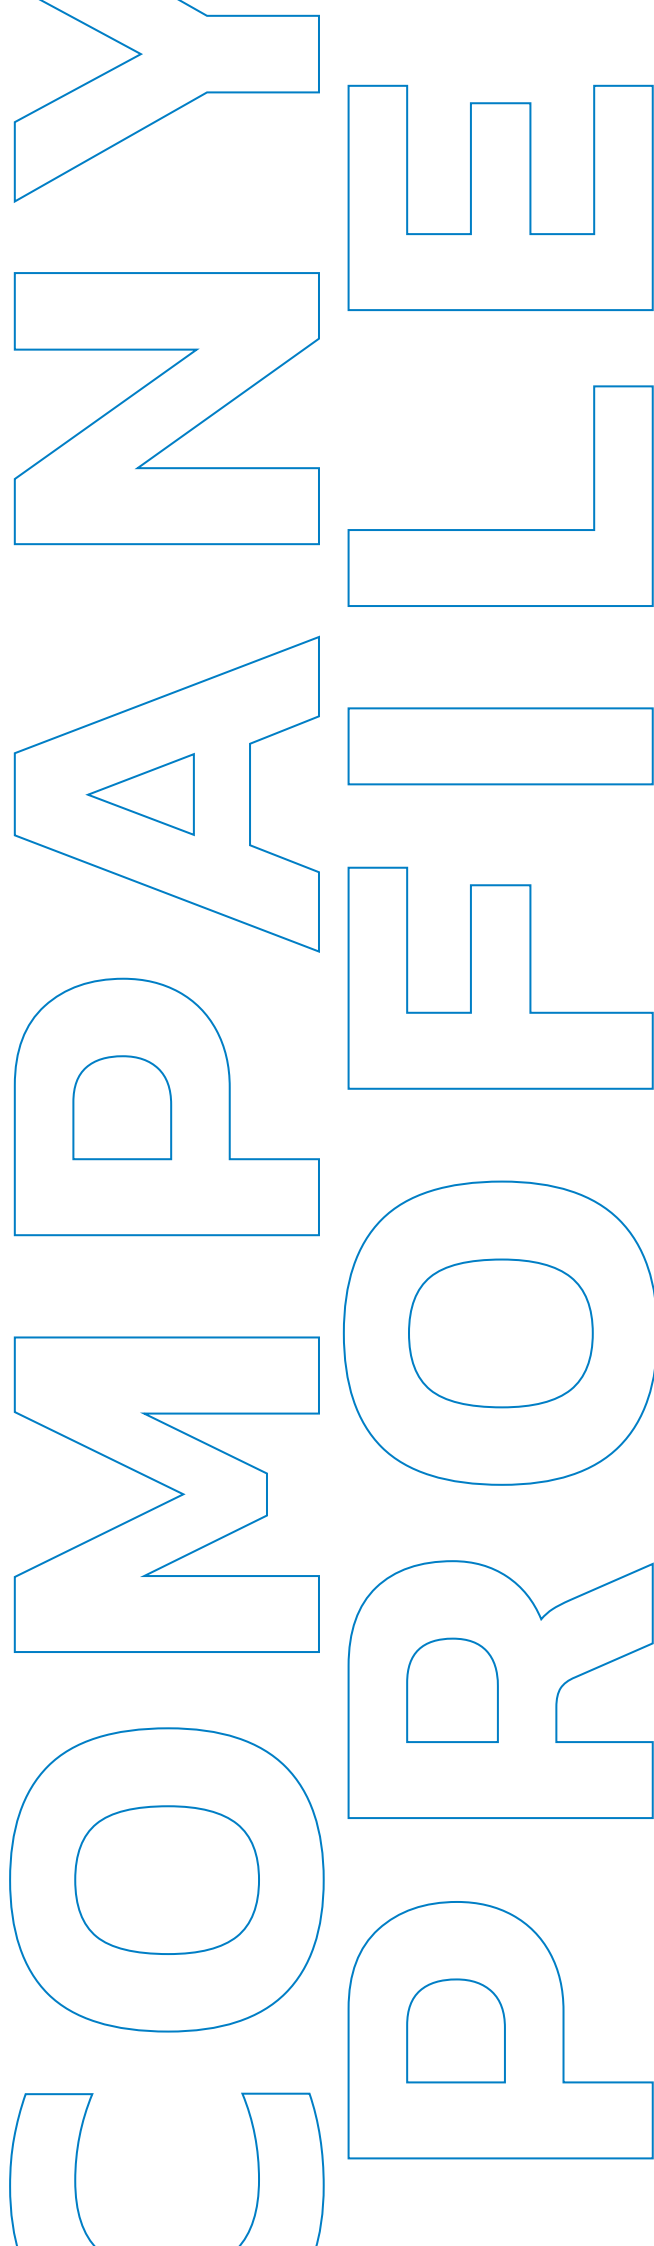

Our manufacturing infrastructure is equipped for quality at every stage. Highly skilled workers, with advanced equipment across over 290,000 sq. feet of facilities to produce high-quality Metal Fold products.

Periodic updates on technology and personnel skills help keep our products world-class.

## Stringent Quality Control

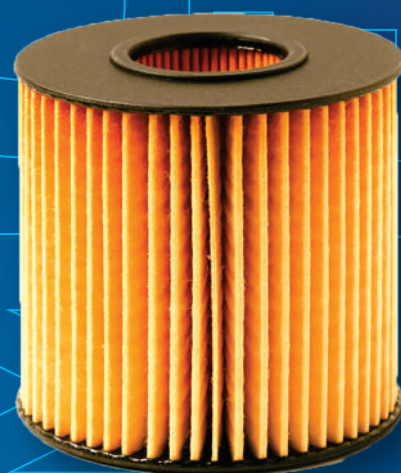

Every product has to go through a series of tests before it can be called a Metal Fold product. Some of the tests our products go through include:

- Tests for weld quality, joints and strength.
- Dimension tests using gauges and micro meters.
- Radial and corner fatigue test.
- Automated plating thickness checks.
- Rim profile test on profile projector.
- Impact resistance tests.
- Five paint resistance tests using a muffle furnace, humidity bath, hatch test, dry film thickness test and wet film thickness test.

# AUTOMOTIVE FILTERS

Metal Fold is a leading auto component manufacturing company for two wheelers, three wheelers, cars and also producing high quality automotive filters to ensure great performance of the engines in a very dusty road condition in India. Clean air intake is one of the most important conditions for optimal engine power, high torque, low fuel consumption and minimized pollutant emission. METAL FOLD air filters are made high quality media to protect dusts for the high performance. At the same time, an optimal air/fuel mixture is assured. Restricts fine dust particles to ensures long service life under extreme conditions such as heat, cold or chemical influences. Our quality filters prevent premature wear of the valves, cylinder work surfaces, piston rings, bearings and other engine components.

# AUTOMOTIVE CABLE

We are the manufacturer and exporter for high quality Accelerator cables, Brake cables, Choke cables, Clutch cables for motorcycles, scooters, 3 wheelers, E-Rikshaw, Electric Bikes and commercial vehicles.

Accuracy and perfection is our priority and our dedicated team work with well defined systems and processes for high quality products to sustain all adverse conditions.

Our products are gone through 4 stages of inspection. For cables we ensure Tensile Test, Torque Test, Flickering Test, Proof Load Test and Strength Test. We are also in process for development of wire harnessing for 2 & 3 wheelers.

# AUTOMOTIVE FRICTION CLUTCH

Metal Fold Clutch Plate are made with eco-friendly products and are based on Advance friction technology. We have very stringent quality check to ensure high endurance products with more heat resistance. We are manufacturing wet and dry clutch plates for both 2 & 3 wheeler. All the friction materials are formulated, developed and produced in our plant with strictly controlled in all phases of the production process.

# AUTOMOTIVE SILENCER

---

We have a wide range of motorcycle silencers with unmatched quality standards. Our pretreatment process before plating ensure higher silencer life in saline climate.

The quality team standard are very high, materials of the best quality and is one of the most blazoned in the motor bike exhaust system. Our silencer designed with accuracy to ensure best compatibility with all OE brands.

Accuracy and perfection is our priority and our dedicated team work with well defined systems and processes for high quality products to sustain all adverse conditions.

## BIKE & SCOOTER WHEEL RIMS

We are manufacturer of high quality 2 & 3 wheeler wheel rims with seam and without seam welding.

All the rims are made with perfection to ensure high sealing of tyre. The heavy quality rims protects deformation during tyre punctures. The high quality plating ensure durability of the rim without rusting.

Accuracy and perfection is our priority and our dedicated team work with well defined systems and processes for high quality products to sustain all adverse conditions.

# FORK SEAL

Our sealing solutions are available for motorcycles, the seals come in pairs with a separate oil seal and dirt wiper seal tuned to each other to give low friction for the best riding experience, as well as long life.

- Oil seal and wiper seal to minimize contamination ingress.
- Significantly improved riding comfort  
Increased service life and performance  
Enhanced water and dirt protection capability
- Reduced wear and air suction  
Compatibility with a wide range of OE and aftermarket oils
